

Elevate Your Bids with Faster, Higher Quality Responses

Win more business and produce superior proposals with pWin.ai, the only AI copilot with Shipleyside Inside.

Why use pWin.ai?

Gain a competitive edge

pWin.ai combines your win strategy with past performance and advanced AI to enhance proposal responses, enabling you to focus more on strategy, respond to more opportunities, and significantly boost win rates.

Accelerate proposal development

pWin.ai generates comprehensive drafts aligned with Shipleyside's best practices within hours, allowing proposal teams to go beyond traditional proposal writing and AI chat prompting.

Increase compliance and accuracy

pWin.ai's automated compliance scoring and fact-check-reports help validate that your response adheres to stringent RFP criteria and guidelines, so you can feel confident in your submission.

Ease adoption with seamless integration

pWin.ai works within your existing workflows, including SharePoint, Excel, and Word, ensuring smooth adoption and quick time to value to increase return on investment.

80%

of your draft generated straight out-of-the box

60%

higher win-rates with Shipleyside best practices

How it works

- ❖ **Upload Solicitation Artifacts** Upload your documents directly into pWin.ai, which will extract the essential requirements.
- ❖ **Engage & Define Your Approach** Use the Chat feature to strategize, research, and outline a winning proposal plan.
- ❖ **Generate & Iterate** Produce and refine a tailored draft using detailed reports, creating a winning proposal.

Win more with pWin.ai + Shipleyside

For over 50 years, Shipleyside Associates has been a benchmark in proposal development. Combined with pWin.ai's cutting-edge AI, this partnership offers unparalleled support to proposal teams, enhancing your business development lifecycle and increasing win rates.

By combining pWin.ai with the Shipleyside Proposal Process, every capture team can realize the potential in time saving and quality of having an AI companion that can draft, revise, and review proposal content."
